

INFORMATION FOR THE CUSTOMER

SUBJECT: Declaration of Performance (DoP)

Dear Customer,

We hereby declare that for the following products:

- TROSIL
- TROSIL-TECH
- ISOLMASS
- APLOMB
- Trocellen® N

It is not currently possible to issue a DoP (Declaration of Performance) for a soundproofing product in compliance with the current Regulation (EU) No. 305/2011, relating to the CE marking of construction products.

The relevant harmonized technical specifications for expanded polyethylene (PEF) products, EN 14313 and EN 16069, respectively refer to:

Thermal insulation products for building equipment and industrial installations, a specification that does not cover products used for the insulation of building structural elements;

Thermal insulation products for buildings, a specification that does not include products with a thermal resistance lower than 0.5 m²K/W.

In view of the intended application and the technical characteristics of the products listed above, they are explicitly excluded from the applicable harmonized technical specifications.

We remain at your disposal for any further clarification.

Kind regards,

TROCELLEN Italia S.p.A.
